Finnigan is a young, neutered male mini-dachshund and terrier mix. He has short brown hair, weighs less than 10 pounds and very friendly.

If you found him or took him, no questions asked, please bring him back or take him to the San Jose shelter 2750 Monterey Rd. A heart-broken family was approved to adopt him the next day.

Finnigan has a distinctive smell and hair loss from mange (a contagious skin infection). He needs his medication and vet treatment. If you can't afford his adoption fee, how can you afford his his vet care?
